TOSHIBA

e-STUDIO409P

Monochrome Printing System

- Reliable A4 devices for small workgroups
- Excellent productivity with a 40 pages per minute print speed
- Cost-effective and environmentally friendly based on low energy consumption
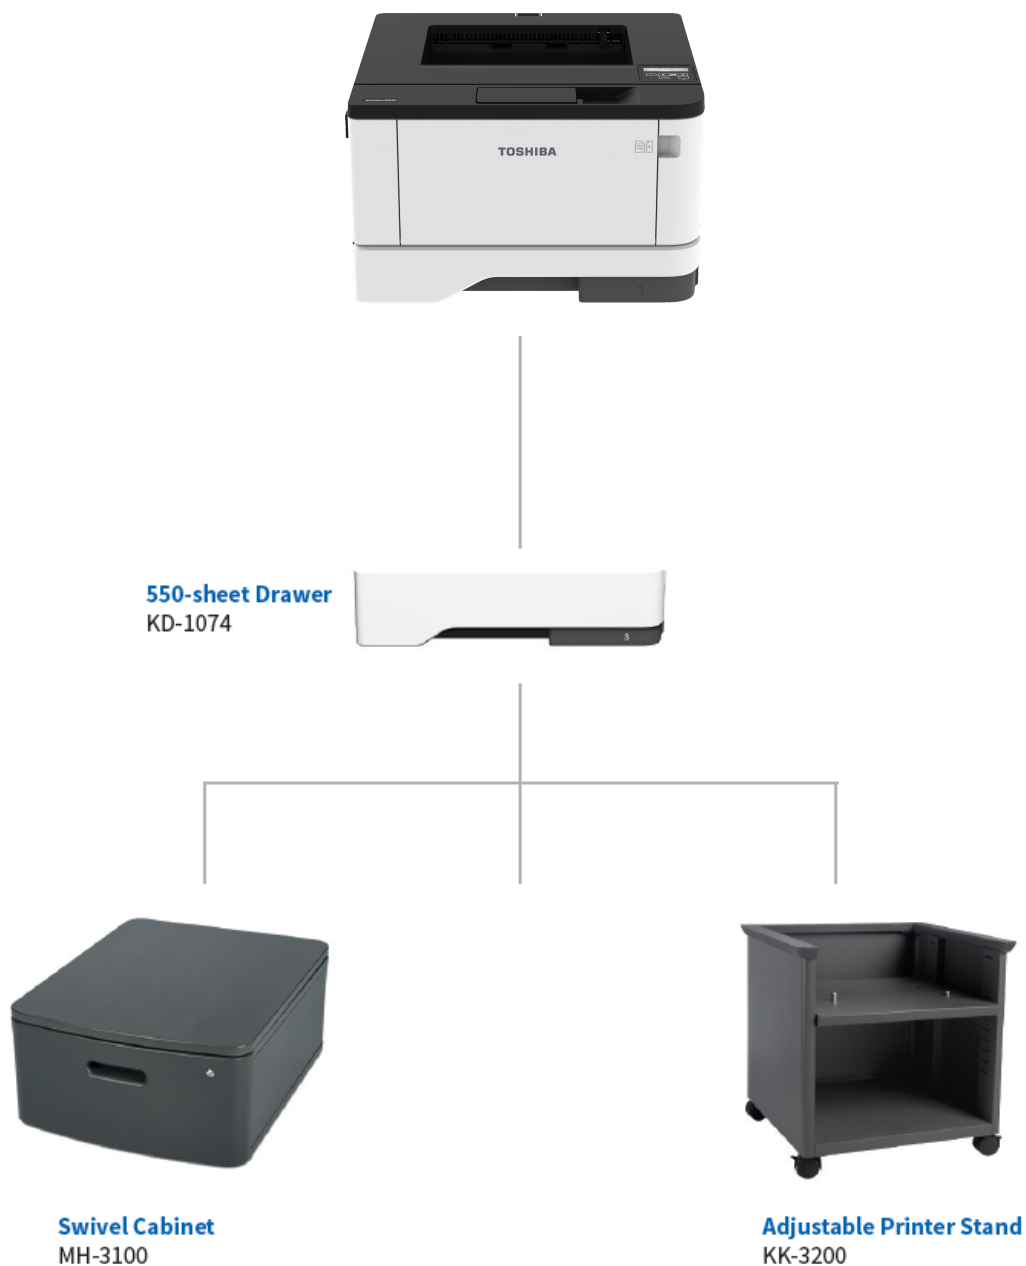

e-STUDIO409p

The e-STUDIO409p is an advanced print system that delivers exceptional functionality and value for money. These monochrome print devices offer efficiency and ease of use, equipped with features like mobile printing to support today's business processes. In addition, they deliver vital data security on an exceptionally high level.

Alongside efficiency and flexibility, data security is a top priority across all Toshiba devices. They are designed to master complex and evolving threats, satisfying security requirements and preventing unauthorised access to protect your confidential data.

The e-STUDIO409p is equipped with an additional layer of security, Trusted Platform Module 2.0 (TPM 2.0). The TPM 2.0 has self-encrypting drives which offer comprehensive, hardware-level security against third party access, encrypting data with a unique encrypted key to help ensure that none of it falls into the wrong hands. TPM not only provides peace of mind by ensuring an extraordinarily high-level of data security within your organisation, but also enables you to comply with the stringent data security requirements of many corporations and government agencies.
